**Evergreen Re Names Curtis Beharry  
Vice President of Client Services**

STUART, FL -- Evergreen Re, the largest HMO reinsurance broker in the country, announced today the appointment of insurance claims and administration veteran Curtis Beharry to Vice President of Client Services.

Beharry brings more than 19 years of managed care reinsurance and employer stop loss cost management and claims processing experience to the firm. His extensive knowledge of the utilization and configuration of claims processing systems, including the designing of unique specialty programs to help clients reduce costs, will provide even greater depth to the company's client services and insurance administration departments.

"Beharry has been working with managed care organizations and large self-funded employers since the 1980s, analyzing claims data, evaluating claims experience and instituting cost-containment programs," said Charles Crispin, President and CEO of Evergreen Re. "Our clients will benefit greatly by the extensive knowledge and understanding he brings to Evergreen Re," he added.

Formerly director of account services at Risk Based Solutions, Beharry also served as operations director for John Alden Life Insurance, and claims manager for CBAI/CAC Ramsey in Miami. Beharry will be based at the firm's headquarters in Stuart, FL.

Evergreen Re Incorporated is a healthcare consulting firm providing reinsurance brokerage services and other risk reduction products and services that improve predictability and financial performance for health plans, provider organizations, large employers, unions and business coalitions. The company's strategic relationships with leading insurance and reinsurance markets enable it to provide comprehensive risk protection for clients with members in more than 45 states. Evergreen Re has offices in Colorado, Florida, Indiana, Minnesota, Pennsylvania and Virginia. For more information, visit [www.evergreenre.com](http://www.evergreenre.com).
